

Reboot Camp, August 14-24 & Open House, August 17, 3:00-5:00

its.tamu.edu/reboot

With two full weeks of come-and-go training and assistance available, it is an ideal time to join Instructional Technology Services for our annual Reboot Camp to get your course ready for fall. Receive high-level overviews and learn more about specific features for many of the centralized teaching tools we support.

New Workshops & Vendor Support

We are excited to offer new workshops this year, such as “How to Create an Engaging Introduction Video for Your Course,” as well as introducing topics such as fair use, active learning, and handling academic dishonesty. Representatives from Examity and iClicker will also be available to answer questions about their products and services.

Open House

In addition, we invite you to our [Open House](#) on **Friday, August 17, 3:00-5:00**, which will feature quick-start sessions at information stations hosted by ITS staff members. Drop by to learn about our services and resources, professional development programs, and latest workshops.

Additional Training & Appointments

If you cannot attend Reboot Camp this year, check out our fall training schedule for dates and times of workshops that will work best for you. As always, feel free to contact us to schedule a one-on-one appointment and receive personalized assistance with an ITS consultant.

COMPLETE REBOOT CAMP SCHEDULE ON BACK ➡
